ROBAB EYNLOO

Operations Research Graduate Research Assistant at the McMaster University

Dedicated PhD Candidate in Management Science with a proven track record of solving complex problems and optimizing processes. Committed, motivated, and adept in contributing to advancements in the field.

EXPERIENCE

Graduate Research Assistant
The DeGroote School of Business
Aug 2023 – Ongoing | Hamilton, ON

- Developed a two-stage stochastic programming framework for public facility location that jointly optimizes efficiency and fairness under demand uncertainty
- Reformulated a Mixed-Integer Nonlinear Program (MINLP) into a tractable Mixed-Integer Linear Program (MILP) via Big-M linearization
- Implemented the Sample Average Approximation (SAA) method to solve large-scale stochastic instances
- Developed a Distributionally Robust Optimization (DRO) model to address distributional uncertainty
- Risk-averse Conditional Value-at-Risk (CVaR)-augmented formulation to protect infrastructure decisions against worst-case scenarios

Graduate Teaching Assistant
The DeGroote School of Business
Aug 2023 – Ongoing | Hamilton, ON

- Operations Modeling and Analysis
- Supply Chain Management
- Decision Making with Analytics
- Business Data Analytics

Business Intelligence Developer
Digikala
Dec 2020 – Sep 2023 | Tehran, Iran

- Developed a two-stage optimization framework combining K-means clustering and mathematical programming to identify optimal locations for new distribution centers and improve delivery efficiency
- Collaborated with cross-functional teams (Sales, Operations, Finance) to translate business requirements into data-driven strategies and actionable insights
- Led project planning activities and provided mentorship, training, and guidance to junior staff members
- Designed and built interactive dashboards in Power BI to support strategic decision-making and performance monitoring
- Implemented data pipelines and automated workflows in Python, improving operational efficiency and scalability
- Developed Business Intelligence solutions using the Microsoft BI stack (SSIS, SSAS, SSRS) to support reporting and analytics needs
- Built customer segmentation models using Recency, Frequency, and Monetary (RFM) analysis to identify high-value customers and enhance targeted marketing and service strategies

CERTIFICATIONS

Coursera/Johns Hopkins University
R Programming
October 2026

TECHNICAL SKILLS

Mathematical Modeling
Optimization under Uncertainty
Decomposition Algorithms
Nonlinear Optimization Algorithms
Statistical Analysis | Regression Analysis
Bayesian networks
Convolutional Neural Network
Data Warehousing
Business Intelligence (BI)

Matlab | Python | R | GAMS | Gurobi
Pyomo | SQL | PowerBI | Tableau
PyTorch | TensorFlow
Advanced Microsoft Excel | Microsoft Office

SPECIALTY TRAINING

Statistical Machine Learning
Fund. of Data Science for Eng.
Adv. Statistical Regression Analysis
Algorithms Graph & Networks
Nonlinear Optimization
Large-Scale Optimization
Dynamic Modeling in Systems
Supply Chain and Logistics Engineering
Mixed-Integer Linear Programming
Vehicle Routing Problem

SOFT SKILLS

Hard-working | Persuasive
Motivator & Leader | Critical Analysis
Detail-oriented | Flexible

EDUCATION

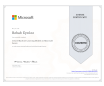

PhD in Management Science
DeGroote School of Business
August 2023 – expected 2028

Coursera/IBM
Introduction to R Programming for Data Science
June 2026

Coursera/IBM
SQL for Data Science with R
May 2026

Coursera/Microsoft
Create Machine Learning Models in Microsoft Azure
May 2026

Coursera/University of Michigan
Introduction to Data Science in Python
Aug. 2025

AWARDS AND HONORS

- DeGroote International Graduate PhD Student Scholarship valued at $7500, 2025
- Degroote School of Business, entrance scholarship valued at $5000, 2023
- Ranked 59th, in the Iranian National University Entrance Exam for M.Sc. in Industrial Engineering among more than 10,000 participants, 2017

Minor in Statistics and Data Science
Dr. Kai Huang

M.Sc. in Industrial Engineering

University of Tehran, Iran

August 2017 – October 2020

Minor in Logistics and Supply Chain Management
Dr. Ali Bozorgi-Amiri
GPA: 3.77

B.S. in Industrial Engineering

K. N. Toosi University of Technology, Iran

August 2013 – August 2017

GPA: 3.75
